

Perspectives and ways forward in Compound Event research

DAMOCLES Final Conference

6-8 September 2022, Instituto Dom Luiz (Faculty of Sciences of the University of Lisbon, Portugal)

Abstract submission deadline: 27 May

Fee payment deadline: 31 July

DAMOCLES is a European COST Action (CA17109) that aims at the understanding and modeling of compound climate and weather events. Compound weather and climate events describe combinations of multiple climate drivers and/or hazards that contribute to societal or environmental risk. During such events, multiple weather and climate drivers come together and surpass the coping capacity of the underlying systems.

Organizing Committee:

Alexandre Ramos (Instituto Dom Luiz, FCUL, Portugal)

Jakob Zscheischler (Helmholtz Centre for Environmental Research - UFZ, Germany)

Ana Bastos (Max Planck Institute for Biogeochemistry, Germany)

Indiana A. Olbert (National University of Ireland, Ireland)

Andreia Ribeiro (ETH Zürich, Switzerland)

Bart van den Hurk (Daltares, Netherlands)

Wim Thiery (Vrije Universiteit Brussel, Belgium)

Minna Keinänen-Toivola (Satakunta University of Applied Sciences, Finland)

Ana Pires (Instituto Dom Luiz, FCUL, Portugal)
